## Hydrant flushing

It's that time of year again and the Town will begin the semi-annual process of flushing water hydrants as weather permits. Hydrant flushing is one form of preventative maintenance the Town uses to provide Winslow residents with the highest quality water possible. Please be advised that you may experience a drop in water pressure as well as some discoloration of the water during this process. This discoloration is only temporary and does not indicate a problem with the water. However, you may want to refrain from doing any laundry during this time. If you experience discolored water, allow faucets to run for a few minutes to clear your lines. The date of the flushing will appear in the Press Dispatch as well as on the home page of the town website

## Town Council

### Meetings

The Town Council meetings scheduled for the 13th and 27th of this month will be held at the Winslow Community Center.

Please note: the function of the Council is to conduct the business of the Town of Winslow. While it is a meeting being held in public, it is not a Public Meeting. If you have an issue, please contact us about your concerns through our website @ [townofwinslowin.com](mailto:townofwinslowin.com).

## School's out!

So please **slow down** and be on the lookout for children who may be out playing or riding their bikes and for the pets who may have snuck out an open door. Obey all STOP signs and remember, the speed limit on all of our Town streets is 25 mph. These measures have been put in place for the safety of our residents. Please show them the same care and consideration you would like to see in front of your own home.
